

## We Must Not Fall Away

We were made from the clay  
for a better place.  
We were bought for a price  
so we could be saved.  
We are weak, we fall away  
straight into the grave.  
We're the salt of the earth.  
Have we lost our flavor?

We must not fall away.

There'll be many dark hours affliction and pain.  
They'll be mocking and laughing cursing your name  
but they're just misguided they don't know the way.  
For we are living in the last days.  
They're just misguided they don't know the way.  
For we are living in the last days.

So we march through the wilderness  
nourished from heaven.  
Don't look back like Lot 's wife did.  
A pillar of salt she became.  
We must not fall away.  
We must not fall away.

There'll be many dark hours affliction and pain.  
They'll be mocking and laughing cursing your name  
but they're just misguided they don't know the way.  
For we are living in the last  
They're just misguided they don't know the way.  
For we are living in the last days.
