**A threat'ning sky
The storm's in sight
But we know out beyond the storm
There'll be a rainbow
Just like the trials that are yet to come
We're to lift our heads up high
For our redemption draweth nigh**

**On the first day of forever with our Savior
When... the trumpet sounds
He'll come down from on high
Earthly fears will be past
Our change will come at last
On the first day of forever...with the Lord**

**We'll pray for strength
And not grow faint
We'll cast upon God every care
He won't forsake us
A comfort in...our deepest hour of need
He has summoned us by name
We will hold fast and keep the faith**

**For...
On the first day of forever with our Savior
When.....the trumpet sounds
He'll come down from on high
Earthly fears will be past
Our change will come at last
On the first day of forever...with the Lord**

**Until then each day
We'll look to Jesus
He's the Author and Perfecter of our faith
To the God of Jacob
Who will see us through
Every dark day we may face**

**On the first day of forever with our Savior
When....the trumpet sounds
He'll come down from on high
Earthly fears will be past
Our change will come at last
On the first day of forever...with the Lord**

**The first day of forever
First day of forever**

On the first day of forever with the Lord
